INTEREST

My main interest is software development. I am also interested in data analysis, computer algorithms and device integration.

EDUCATION

Cal State LA, Los Angeles — *B.S. in Computer Science*

Sep. 2014 - Dec. 2016

I am currently a senior in computer science at CSULA, expected to graduate in Fall 2016. **GPA: 3.9 CSULA**, 3.1 overall.

Pasadena City College, Pasadena — *A.S. in Mathematics*

Sep. 2003 - June 2014

I received an A.S. in Mathematics in Spring 2014.

PROJECTS

Web Service QOS

I am currently working under Dr. Jiang Guo of CSULA on a web service QOS project sponsored by the Nasa Direct Stem Program. The goal of the project is to monitor and improve the quality of service of web services. The interface of our solution will be web based and available to all platforms. Our project will utilize technology includes Java, HTML, JavaScript, and various JavaScript libraries.

Navsea Gov App Store

I am currently working under Dr. Jiang Guo of CSULA on an App store project for the Navsea sponsored by the US Navy. The App store will be used for internal software distribution within the government. The target platform will be Microsoft Windows. The App store desktop application and server will be written in Visual C# and the web based development and management portals will be written in ASP.NET.

SKILLS

Programming Languages:

C++, Python, JavaScript, Java and C#.

Information Technology:

Computer system maintenance and diagnostic.
